

# BCN

design Harry&Camila

Research into new furnishing materials has produced the BCN stool. The seat, with its visible curves and ergonomic feel, is in special plastic, generally used as insulation for electronic components, as it is highly resistant to wear and tear, solvents and heat. It is available with a tubular steel frame with chrome finish, or in a colour to match the seat: black, white or fluorescent green.

**Metal finish:**

Polished chrome steel

Steel with lacquer in a colour to match the seat

**Body finish:**

White PBT

Black PBT

Green PBT (Pantone 395 U)

Suitable for outdoor use (painted version).

Code	Height (cm.)	Legs	Price in EURO	Vol.
05BCN01	76	colour to match the seat polished chrome steel		0,20
