design Monica Graffeo e Ruggero Magrini

360° swivel chair with a fixed height. The base is in satin-finish chrome steel and the body in polypropylene. The upper part of the seat is covered with soft material supplied in two versions: in polyester fabric coated with stain-resistant Teflon and with resin on the reverse side to prevent the absorption of liquids, or in semi-matt polyurethane coated fabric that is very easy to clean. The chair is fitted with a handle covered with the same soft fabric of the upper part of the seat. Also available with armrests.

**Metal finish:**

**Teflon-coated fabric finish:**

**Polyurethane-coated fabric finish:**

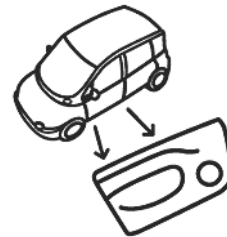

Code	Finish of structure	Volume cu.m
