

MARKANT OFFICE FURNITURE

MARKANT MO⁴

The Markant MO⁴ furniture programme has a feel both modern and businesslike. The clean, functional lines are a key feature of the design.

SYSTEM

Markant MO⁴ is designed in accordance with the modular concept of the Markant System Architecture (MSA). The modular system with its interchangeable components can be set-up in any combination of working tables, conference tables and Bench configurations.

AURA

Strength, quietude and logic underpin the design aesthetic of Markant MO⁴. Floating tops, thoroughly considered connecting possibilities with legs and supports in a variety of designs and finishes set Markant MO⁴ apart.

FLEXIBILITY

Quick to interconnect, the MO⁴ tables are also easy to adjust. This permits a work station configuration to be rapidly expanded or adapted. MO⁴ offers a variety of solutions below the top for cable management.

PERSONAL

The MO⁴ tables can be supplied fixed height, height adjustable step-free with an Allen key, height adjustable with a hand cranking mechanism or powered by electromotor.

OPTIMUM

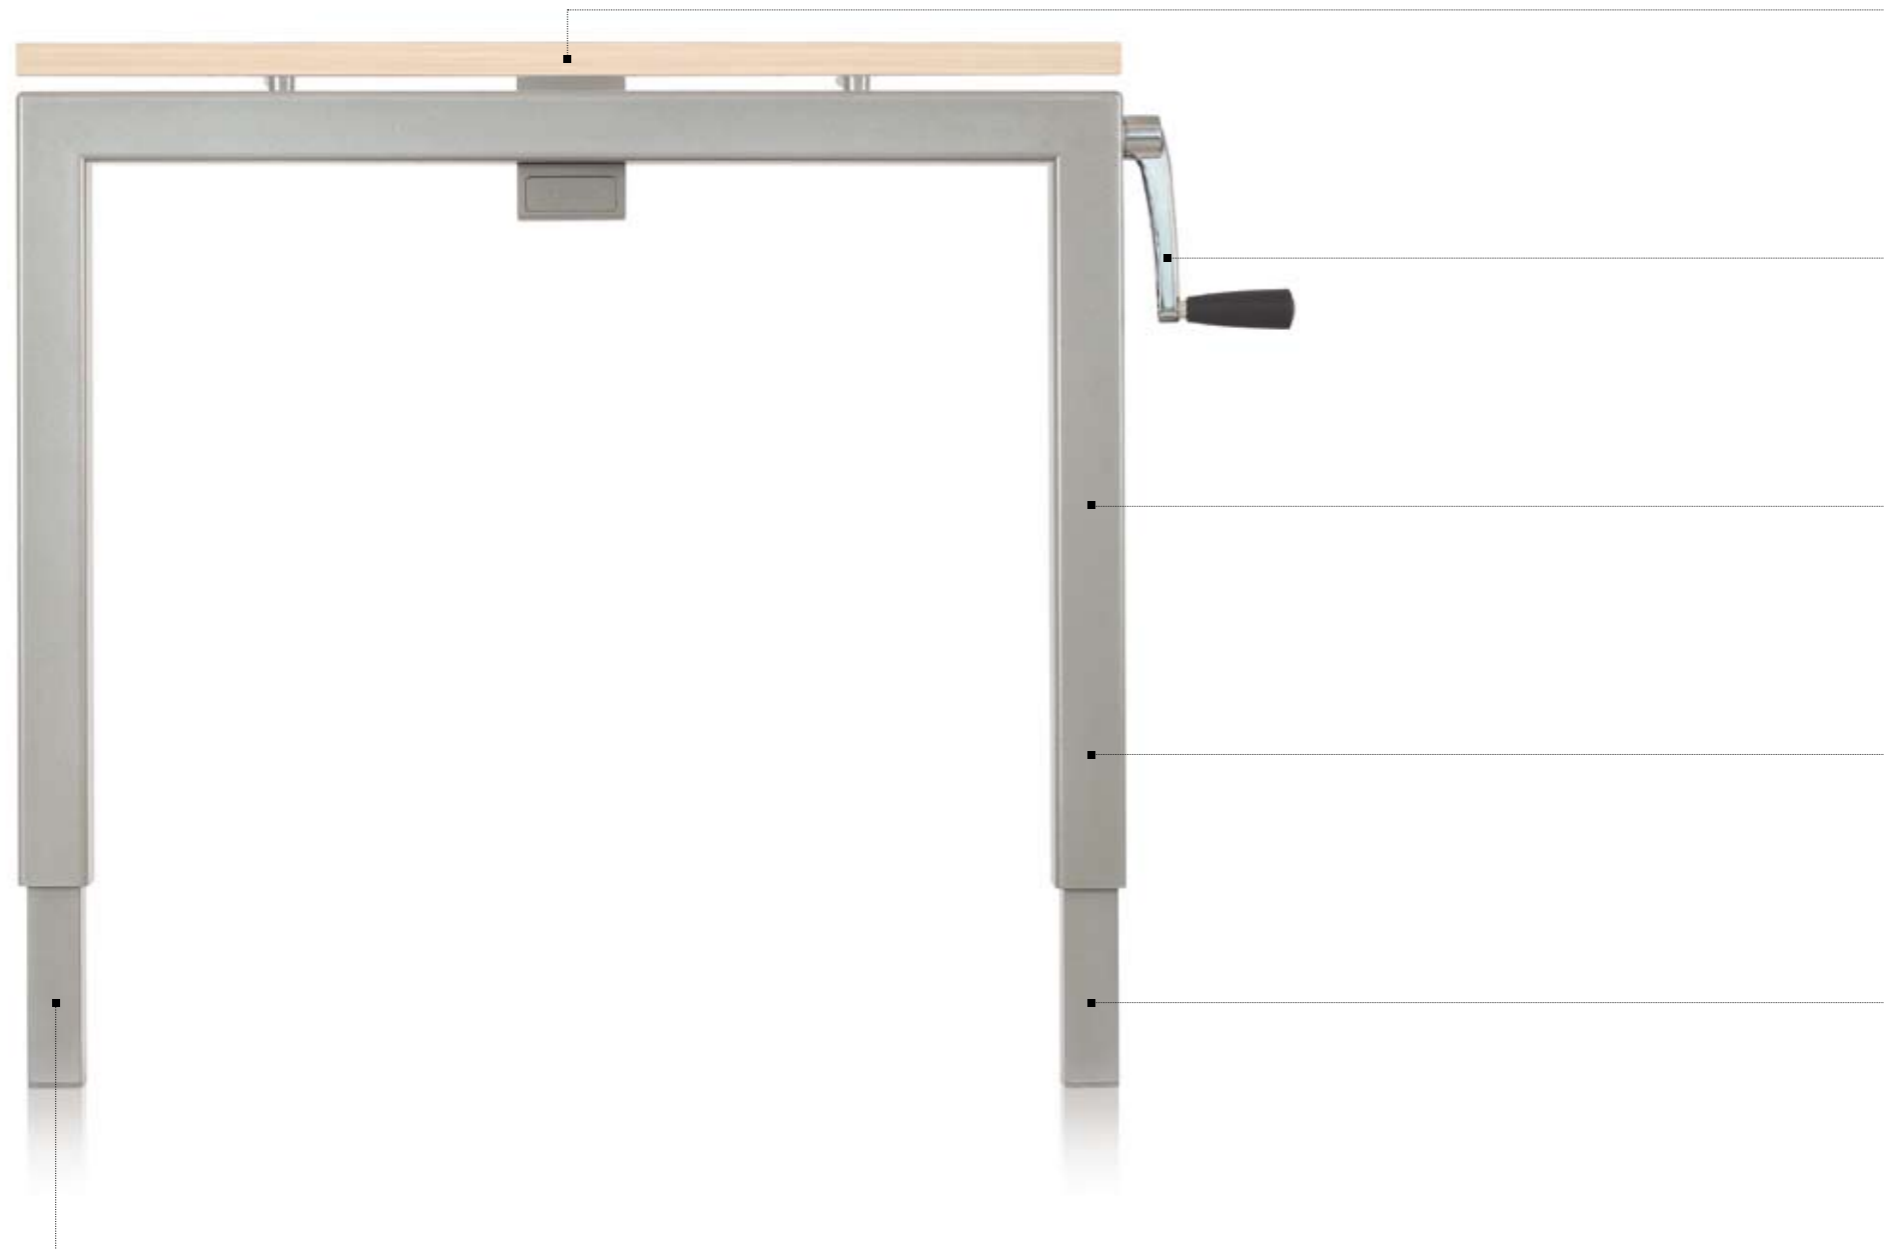

In their various configurations, MO⁴ work stations guarantee optimum use of space. The minimum number of required legs allows for maximum freedom of movement under the tops.

IN COMBINATION

The MO⁴ furniture programme will perfectly compliment a variety of interior styles. Due to its neutral design aesthetic, the MO⁴ will flexibly and comfortably adapt to its environment. In appearance, MO⁴ harmonises with Markant's other accessory products, such as the pedestals and cabinets.

DESIGN

The floating tops and slim-line supports give the MO⁴ working stations a light and spacious feel.

VARIABLE HEIGHT

The top height can be adjusted with an Allen key, a hand cranking mechanism, or powered by electromotor. The height can be adjusted from 62 to 85 cm and is displayed on the table leg.

DURABILITY

The modular system and the timeless ambience are features key to Markant MO⁴'s durability.

STABLE

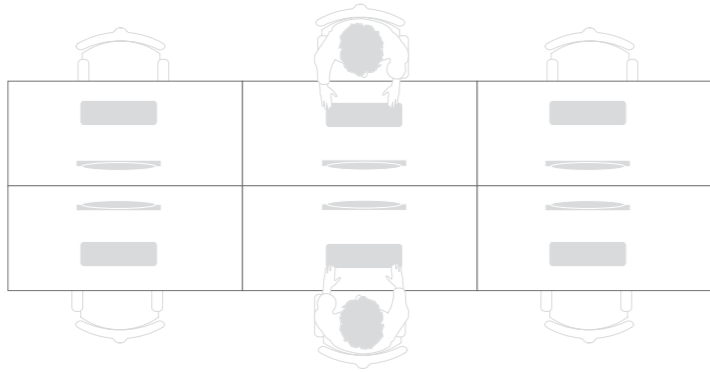

By corner siting of the legs, Markant MO⁴ tables benefit from optimum stability.

ERGONOMICALLY SOUND

MO⁴ work stations fully conform to the ergonomic starting points of the Delft Normalisation Institute and have been tested in accordance with the NEN 2449:2006 NL and NEN-EN 527 standards.

LEGS

The MO⁴ legs and supports are available in a choice of four widths and can be finished in silver grey, white or black.

MO⁴ BENCH

The MO⁴ Bench is a multi-functional work table. First and foremost, the Bench is an excellent first port of call for the mobile member of staff. Here e-mail can be checked, a visit report or survey drafted and documents read.

The MO⁴ Bench is a table which can also function as a hub for dynamic team processes. The Bench is superbly suited for both project meetings or for that informal departmental lunch.

Due to its versatility, the Bench is well suited in organisations which demand a high level of flexibility, for example educational institutions or project organisations.

MO⁴ HI

This support is height adjustable, step-free, with an Allen key. The height ranges from 62 to 85 cm, in accordance with the NEN 2449: 2006 NL and NEN EN 527 standards. The height is displayed on the table leg. The MO⁴ is also available at a fixed height of 75 cm.

MO⁴ MANUAL

This support is height adjustable, step-free, using a hand cranking mechanism. The height ranges from 62 to 85 cm, in accordance with the NEN 2449: 2006 NL and NEN EN 527 standards.

MO⁴ ELECTRONIC

This support is height adjustable, powered by an electromotor. The height ranges from 62 to 85 cm, in accordance with the NEN 2449: 2006 NL and NEN EN 527 standards. The adjusted height can be read on a display on the front of the top edge.

FORMS

Tops and the accompanying frames are available in a wide range of sizes in accordance with the standard module dimensions. For more possibilities, have a look at our Markant Interiors brochure.

TOP MATERIALS AND FINISHES

The tops can be supplied in melamine coated chipboard, in HPL, postformed or solid core, in a wide variety of finishes. With Markant MO⁴, creating the desired atmosphere is easy. For more possibilities, have a look at our Markant Interiors brochure.

LACQUER AND TOP COLOURS

Not only are the tops available in a variety of colours and timber designs, the furniture lacquer colours are also available in various neutral colours. All metal and aluminium components are powder coated to guarantee durable protection. For more possibilities, have a look at our Markant Interiors brochure.
