

Condeco Meeting Room Screens.

A perfect addition to a smarter workspace.

No more meeting room clashes or no-shows. With our beautifully designed touch screens outside your meeting rooms you can reduce friction as everyone can clearly see if the space is free or booked. It means it's the end of meeting room clashes, giving your workforce visibility of room availability and the freedom to easily book a room right when they need to.

Clear booking information

Bright LED lights show the room's occupancy status even from a distance. With the reservation details clearly displayed on the room, there's no more argument about who booked what.

Increase room availability

Free up unused meeting rooms in an instant if users don't turn up and check-in, removing those annoying ghost bookings and increasing room availability.

Instant booking

Book a room directly from the screen, check in to your meeting, or release a room for others to use, all with a tap of your RFID-enabled access card.

Sleek design for your workspace

Our exceptionally designed, crystal-clear 10.1" touch screens are an elegant addition to your meeting rooms. The interface can be branded in a few simple steps.

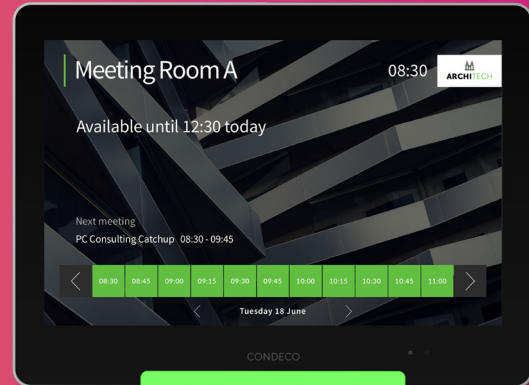

Manage your space seamlessly.

Our meeting room screens clearly show the meeting title, the host's name, the start time and duration of any bookings, eliminating conflict and confusion. Every user can see upcoming meetings for the rest of the day and select available times to book.

The screens display the room status using LED indicators (green, amber and red), offering 180° visibility to quickly identify if the room is available, booked or in use, even from a distance.

The screens are seamlessly connected to our meeting room booking software, ensuring a consistent view of availability and bookings across the entire solution.

Key Features.

Visible meeting information

Detailed meeting information displayed directly outside the room on a high-resolution touch screen.

180° status lights

Red, amber and green LED lights with 180° visibility enable you to see if the room is available, booked or occupied, even from a distance.

RFID access card reader

The built-in card reader supports a wide range of RFID access cards. To complete a booking, or to check in, just tap your card on the device.

Book

See availability of the room across the day and easily book by selecting available times.

Check-in

Ask the meeting host to check-in upon arrival. Condeco can automatically cancel bookings that have not been checked into, freeing up the room for others to use.

End or extend

Need a bit more time in the room? Extend your booking on the screen. Finished early? Use the touch screen to end the meeting, releasing the room for others to book.

Manage and monitor

All your screens can be managed from a cloud-based dashboard that includes usage statistics, device health monitoring with remote restart and automatic software updates.

Customizable screen themes

Give your screens a unique look, apply a theme to a single screen, a group of screens, or your entire office – all in a matter of seconds.

Reports on room usage

Each screen gathers essential meeting data, enabling you to gain insight into how the room is being used and who turns up for their meetings.
