Edge Workstation

Edge Workstations are perfect for all office situations from single standing desks, against walls or workstation clusters configured with screens. Also available with technician height adjustable leg options.

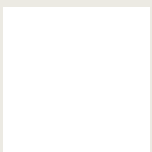

Configurations include a straight or corner desk, benching (back to back), and 120 degree. Privacy screens can be supported which are clamped to the worktop or independently connected to the leg bracket.

Cable management options includes a central cable tray, basket and soft wiring umbilicals.

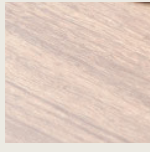

Desktop accessories also available including monitor arms, desktop power and shelving.
