Tye Bedside Table

The Tye bedside table is part of the Nell series of cabinetry. It is a composition of harmonious details that create a contemporary living room statement piece. Each element invites attention and tactile interaction. The scalloped top shelf provides a safe top surface, while the front edge opens the doors, revealing ample storage and internal drawers.

The design allows for further exploration through the choice of combinations of various stone types and wood finishes. A product designed to be timeless, through the use of noble, natural materials, and honest - by embracing traditional craftsmanship and joinery.

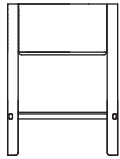

Designer:
Patrik Koca
