ELWOOD

RP-E-2302

The Elwood collection comprises quintessential elements of classically timeless wall lighting. A study in proportion, Elwood floats an elegantly formed shade over a crisp backing plate – the subtly offset proportions bringing stylistic rigour to this framing detail.

Paired back finishes bring sophisticated luxury to the clean form, with indoor editions featuring customisable, richly textured fabrics over hand finished brass or powdercoated plates. Stepping outdoors, weather sealed models in powdercoated aluminium provide a contemporary yet classic exterior lighting solution.

Elwood is available in portrait and larger landscape oriented variants.

RAKUMBA DESIGN TEAM

The phrase 'Making Beauty' truly represents why we do what we do. We're passionate about lighting and about authentic design.

Rakumba's design team is focused on beauty, detail and going beyond the ordinary. Rakumba Design is present at every stage of making the beautiful decorative lighting we offer.

Our people all contribute to the design thinking behind our products, ensuring that the collaboration we value reflects individual expertise and experience. We collectively solve problems and manage risk through a design-led approach, which is critical to our advancement and progress in lighting design, manufacturing and technological integration.

We think it's important for every product to have its own story. We concentrate on narrative and form, materiality and manufacturing techniques. It's all part of our ethos of uncompromisingly driving for perfection, achieving complex products that appear effortless.

At Rakumba, design is critical to making beauty.
