

EXHI

innerSPACE

EXHI offers unparalleled agility, allowing you to easily rearrange and reconfigure your work space environment.

With a simple push or pull, you can quickly create open collaboration areas, defined focused work zones, or adjust privacy levels based on your needs.

This flexibility empowers you to optimize the area in any environment.

Functioning both as boundaries and interactive tools for collaboration, the Exhi brings agility to every square metre of the office. Facilitate spontaneous team collaboration by enabling you to seamlessly shift between individual work and group activities.

Whether you need to bring people together for a brainstorming session or quickly separate into smaller focused groups, Exhi adapts to your changing needs.

This promotes open communication, idea sharing, and collective problem-solving, driving innovation and productivity.

With various configurations available, EXHI can engender an array of office layouts and work scenarios.

The EXHI collection includes high and low shelving units, TV and Whiteboard combination stands, Whiteboard stands and Shelving units with pinnable panels.
