Parrot Floor

Parrot Floor is the flexible floor lamp made of anodized Aluminium. Its head, which can rotate endlessly by 360°, allows for flexible lighting – from focused reading light to gentle ambient lighting.

Vibes (dynamic light scenes) and Sunset Dimming (blue-free Light) create a cozy atmosphere and promote sleep. The Parrot Floor Portable is the mobile version and can be charged with the charging stone. The head, positioned tangentially on the shaft, gives the design its sculptural appearance.

Designed and manufactured at the GRAU Campus in Germany.
