smooth

TECHNICAL INFO

Inner structure of compact wooden board with marine protective treatment, resistant to water and humidity, combined with expanded polyurethane foam in different densities and a special fabric for outdoor use with a smooth finish. The structure incorporates a calibrated steel beam with an exterior protective coating, lacquered in thermoset polyester in graphite grey (RAL 9007). The legs are made of inox steel with a special protective treatment for outdoor use, powder coated with thermoreinforced polyester in black or white with a microtexturized finish.

NOTE: Outdoor cover available to protect the product from water, humidity and sunlight.

CERTIFICATIONS

ANSI/BIFMA X5.4:2012 and UNE-EN 16139:2013

Follows the outdoor regulation: UNE EN 581-3:2016
