» When a form achieves the right proportions and the design is reduced to its essence, only the essence remains. All'essenza is a chair that strikes a balance between simplicity, comfort, and timeless elegance. «

ALL'ESSENZA CHAIR

Sit light.
Stack tight.

Design
Alexander Gufler (IT)

All'essenza is characterised by a simple silhouette and balanced proportions. The seat and backrest form a compact unit with a natural lightness. Thanks to its stackability and ability to be arranged in precise rows, it helps organise seating clearly in restaurants, hotels, and public spaces. Various colour options and the possibility of full upholstery provide the chair with a wide range of applications.

Materials

At Ton, materials are chosen with care — both for their beauty and their origin. Sustainably sourced beech and oak from local forests ensure lasting quality and respect for nature.

The colour palette reflects Ton's heritage and surroundings: the deep blue of the craftsmen's uniforms, the brick red of the historic factory walls, the whites and greys of the steam from the kiln before hand bending. Every detail is thoughtfully chosen to create furniture that is timeless, responsible and deeply connected to its origins.

Wood colour swatches

Beech and oak are selected for their strength and versatility, while American walnut, available only in its natural wood finish, has rich tones and a distinctive grain. Surfaces can be left in their purest form, treated with clear lacquer or oil to retain their organic texture. Stains subtly enhance natural grain, adding depth while preserving the character of the wood, while pigment finishes create a soft, contemporary layer of colour that uniquely interacts with the structure of the wood.

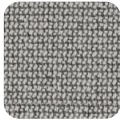

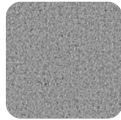

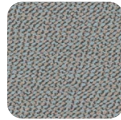

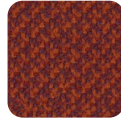

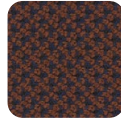

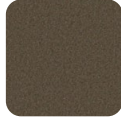

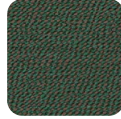

This curated selection ensures a harmonious balance of authenticity, craftsmanship and contemporary aesthetics.

NATURAL FINISHES

Upholstery Swatches

A carefully selected range of fabrics, synthetic and natural leathers ensures durability, comfort and aesthetic harmony. The upholstery materials are divided into four fabric categories (A-D) and two leather categories, meeting high standards of abrasion resistance, pilling and flame retardancy, making them ideal for both private and public spaces.

These fabrics also comply with EU regulations and certifications such as OEKO-TEX® and the EU Ecolabel, supporting sustainable and responsible production.
